KCberry Rubber Trowel

Ultra-flexible rubber trowel for fine microcement finishing

High-density rubber

Ultra-flexible

Mark-free

30 × 13 cm

Microfinishing

Description and use

The **KCberry Rubber Trowel** is an ultra-flexible trowel in high-density technical rubber, designed for applying fine microcement (Microfinishing). It prevents dark marks and overly pronounced nuances and adapts to curved surfaces, corners and details.

Features

- **Flexible high-density rubber.**
- **Prevents marks and scratches**, for a natural, uniform finish.
- **Ideal for the second coat** of fine microcement.
- Better thickness control; ergonomic handle that reduces effort.

Technical data

Property	Specification	Unit	Method / Standard
Material	High-density technical rubber	—	—
Dimensions	30 × 13	cm	—
Handle	Ergonomic	—	—
Use	Fine microcement and finishing; curved surfaces and details	—	—

Care

- Wash with water immediately after use, before the material hardens.
- Store without bending, to keep the rubber flat.
